

## CANADIAN.

Lieut.-Col. Taylor has been appointed commandant of the new military school to be opened at Winnipeg.

Twenty-three ladies, one of them a negro, passed a matriculation examination at Toronto University last week.

The Scott Act has been passed in Ontario by over 1,000, but defeated in Manitoba by one third of that number.

A special to the Globe from St. John's, Nfld., says the steamer Alcatraz with the Hudson's Bay Expedition, returned Wednesday evening for repairs after three weeks in the ice. The entrance to the straits was made, but no attempt was made to get through mainly on account of a short supply of coal.

It is stated in shipping circles that the visit of Andrew Allan to England is for the purpose of arranging for the building of two or three steamers for mail service between Montreal and Liverpool.

## HE ACTED WISELY.

"I am so weak I can hardly move, all run down with a Chronic Summer Complaint," said one gentleman to another on the street the other day. "Now, take my advice," replied his friend, "go to your druggist and get a bottle of Dr. Fowler's Extract of Wild Sarsaparil. I never have known it to fail in curing any kind of Summer Complaints."

## PROVINCIAL.

The Beulah School has 30 pupils on an average.

The Birtle Observer complains that cruelty to animals is practiced in that town.

Major Boulton and his men are to be tendered a public reception by the people of Birtle, on their return.

The Presbyterians of Marquette have extended a call to the Rev. Mr. Cairns, who has been laboring there for some time.

Quite a number of cattle in 7-11 have died recently from an infectious disease, resembling pleuro pneumonia. Mr. James Barr, of this place, who owns a farm near Norquay, lost three fine cows last week from the disease, and requested Dr. Young, of the Crossing, District Veterinarian to make an inspection. Being out of his territory the Dr. telegraphed Acton Burrows, Dy. Minister of Ag-1, for instructions, and a reply was received, stating that if certain declarations were forwarded to the Dept. of Agriculture, of Carberry, would visit the infected district. The throat, lungs and heart are the principal parts affected, and the animals die very soon after being attacked. Seven head of cattle have already succumbed to the ravages of the disease, and if prompt measures are not at once taken others will no doubt die.

## JOINT STOCK NEWSPAPERS.

In our last issue we treated of joint stock companies in the Northwest generally, showing how they had in most cases failed when they had embarked in business under takings, and this week we narrow ourselves down to the results of joint stock management in connection with the press of the country. During the past three years there have been in the Northwest some seven joint stock companies, and each and every one of them have proved to be commercial failures. Some were born of speculation and floated to puff and bolster speculation, while more were carried on for political purposes, and to suit the aims of politicians or political parties. But all have been failures, and in some instances creditors have been made to suffer. Among the journals which have been carried on in Manitoba for purely political aims the most prominent is the Winnipeg Times, the recognized organ of Conservatism. Seward observers have long ago concluded that this journal was not a paying concern, and that its support, if it were going to live, had to come from some other source than the patronage of its readers and advertisers. Yet Conservatism had to have an organ in Winnipeg, and directly or indirectly, the Dominion and Local Government, and the faithful of the creed, had to pay up to enable it to swing. There was another Winnipeg daily, the Sun, which was also a non-paying journal, and its proprietors, after nearly three years of a plucky but unsuccessful battle to keep its head above water, were on the look out for a purchaser, or what was more likely to be secured, a political "buddy," who would adopt and foot the expenses of their unprofitable protegee. Such was the state of the daily press of Winnipeg, when the Local Government determined to be no longer content with an organ not managed and conducted directly in their own interests and indirectly by themselves. In entering upon this undertaking they had to act with caution, so as not to stir up any opposition. They had to secure possession of one of the journals in the market, and get the other out of existence at as little expense as possible was the next work on hand. This undertaking was entrusted to one whom Mr. Norquay and his colleagues could trust to look after their interests. He had been several years a Deputy-Minister with them, had manufactured alleged facts and figures just as they were called for, and had, year after year, furnished each department with an array of statistics (according to the assertions of some people) drawn from his own fertile imagination, his own unlimited check, or some such trustworthy source and which were about as reliable as the bargains he has signed in his newspaper purchases, and like these purchases, agreements, were always given to the World (or rather the few people in the World who troubled themselves to look at them) with his name at the bottom of them, a facsimile of his signature by the way, so that no one might doubt who was the "Smart Aleck" who compiled them. Such was the agent entrusted with the newspaper purchase work of the Government, and he soon succeeded in securing possession of the Times, and gave his promise for the new proprietors, to pay the sum of \$25,000 for the journal and plant. Having secured one journal purely on a promise to pay, and a promise he evidently had no intention of

keeping, he soon secured the Sun also, but not upon pure wind, for its proprietors were sharp enough to get security before giving up possession. His next move was to keep hold of both and by a freeze-out process to squeeze the Times out of existence, and then on some trivial pretext repudiate his purchase of this journal after crushing it. Strange to say he found a supporter and friend in one of the proprietors of the Free Press, which fact to one can account for, unless upon the theory that a pool in politics as well as Government printing is meant in the future. Here we had a sweet complication of a Government composed of men, the majority of whom are about as irresponsible and inept as can well be imagined; an extremely slippery agent, and an outside newspaper proprietor, all engaged in trying to crush out of existence an opposition journal, even if the creditors as well as the stockholders of said journal should lose heavily thereby. Joint stock managed newspapers are no doubt a very bad thing, but evident they are not improved when politicians come to the rescue. The rights of honest creditors are not much considered, especially with Manitoba politicians, whose aim during the last session of legislation has been to enable rogues to swindle honest men. Yet out of this muddle of trickery and knavery, there are those who look for a pure press to represent honestly the interests of the people, let us then thinking man ask, can expect such? Some people may be hopeful enough to do so, but much of only an ordinary share of political enthusiasm will be apt to judge of the bird by the nest it was bred in.

But there is hope for the Winnipeg press yet, for the trickery of professional politicians has not leavened the whole of Winnipeg Conservatism, at a meeting of that party held on the evening of the 4th inst., it was satisfactory to see that the rank and file of Conservatives condemned the shuffling and tricky policy of their leaders, and declined to support a journal hatched in such a nest of duplicity and dishonesty. We are mistaken if this decision of the yeomanry of Conservatism is not the introduction to a refusal to support any longer a collection of men, who legislate to shelter the dishonest. The people after all have the power in their own hands, and this declaration of Winnipeg Conservatives against trickery and in favor of honesty may, and doubtless will, lead to a further declaration at the next Provincial election in favor of men who pay one hundred cents on the dollar and are anxious to see others paid the same, even if the transaction be the transfer of a party newspaper.

We may safely conclude from the above that joint stock managed newspapers in Winnipeg are not run to make money, but purely to suit the political whims of parties; and we may conclude with equal safety, that it would be folly for any man or firm to compete against them on purely commercial grounds. The acknowledgment is a humiliating one to our local press without doubt, but it is one we are forced to make all the same.—Winnipeg Commercial.

## A FREQUENT ANNOYANCE.

Many people suffer from distressing sick headaches and bilious attacks of frequent occurrence when a bottle or two of Burdock Blood Bitters would entirely remove. It regulates the Stomach, Liver, Bowels and Blood to a healthy action.

## GLENWOOD.

Glenwood council met this day, July 8 pursuant to adjournment. Members all present, Reeve in the chair.

Minutes of last meeting read and confirmed.

Petition of R. Hume and others for a bridge over Plum Creek on section 5, tp. 8, rg. 21, and right of way through said sec. being read.

Fenwick and Smith—that as this municipality has not the funds to expend on building a bridge over Plum Creek petitioned for by Hume and others action be deferred for the present.—Carried.

Fenwick and McPherson—that Mr. Kerbyson be furnished with plank and 5 lbs of nails to build a culvert in his road division not exceeding 300 feet.—Carried.

Kerr and McPherson—that this council do grant one half the cost towards the building of a bridge across Plum Creek between secs. 7 and 12 on the boundary between Sifton and Glenwood municipalities the cost of the bridge not to exceed \$200, and that a committee composed of T. Henderson and G. Brown do co-operate with Sifton council with full power to perform the work.—Carried.

Fenwick and Kerr—that Mr. H. Cook be allowed three days statute labor for work done by him between sections 3 and 10, tp. 8, rg. 21, in 1884.—Carried.

Fenwick and Brown—that the following accounts be paid.

J. Dolmage, second qrs. salary .....\$25.00  
G. Clark, repairing Souris bridge 5.00  
Daly & Caldwell, advice re taxes 2.00

—Carried.

Road and bridge committee report that having visited the site of the proposed bridge petitioned for by Todd and others, recommended that a culvert be built 6x6 and 24 feet wide.

Henderson and Kerr—that the report be adopted.—Carried.

Kerr and Brown—that in accordance with Road and Bridge Committee report of last meeting, an order be signed in favor of D. Best, pathmaster for \$25.00.—Carried.

Council then adjourned till Wednesday August 5th.

J. DOLMAGE, Clerk.

## GRAIN GRADING AND INSPECTION.

The Secretary of the Winnipeg Board of Trade has, under date of March 26, written the Sec-Treasurer of the Board of Agriculture, in reference to the resolutions on this subject passed at the annual meeting of the Board of Agriculture in February last, as follows:—

"Your communication to the president of our Board and accompanying resolutions of the Provincial Board of Agriculture re grain grading and inspection, were laid before our last meeting of Council, and, in accordance with our grain examining com-

mittee on the subject, our Board feel grateful for the support of the Provincial Board of Agriculture, and are gratified to know that our views on the question of grain inspection and grading and yours are almost the same. The adoption of northern grades our Board have always opposed, but while they are in use in Duluth and Minneapolis the Dominion Department of Inland Revenue seems determined upon enforcing them here. The locating of a chief inspector for this province in Winnipeg has also had the consideration and support of our Board, and has been urged in a long correspondence with the Department at Ottawa. The only point in the resolutions in question not adopted by our Board is that of compulsory inspection of grain at Winnipeg. While the Board believe that the same would be to the advantage of the grain producers of the Province, and not without profit to the trade interests, the measure has been considered too arbitrary in its demands, and on that ground alone not urged.

## Drunkennes, or the Liquor Habit, can be cured by administering Dr. Haines' Golden Specific.

It can be given to a cup of coffee or tea without the knowledge of the person taking it, effecting a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic wretch. Thousands of drunkards have been made temperate men who have taken the Golden Specific in their coffee without their knowledge, and to day believe quit drinking of their own free will. No harmful effects result from its administration. Cures guaranteed. Circulars and testimonials sent free. Address: GOLDEN SPECIFIC CO., 185 Race St., Cincinnati, O.

ROSSER AVENUE.

## MAIL CONTRACT.

SEALED TENDERS addressed to the Postmaster-General, will be received at Ottawa until noon, on Friday 14th August, for the conveyance of mail matter by rail, on a proposed Contract for 3 years and ten months, 6 times per week each way, between McLean Post Office and Railway Station, from the first day of September next. The conveyance to be made on foot or in a suitable vehicle.

The Mails to leave the Post Office and Railway Station on such days and at such hours as may be from time to time required to be delivered at the railway station within fifteen minutes after the arrival of the mail trains.

Printed notices containing further information as to conditions of proposed Contract may be seen, and blank forms of tender may be obtained at the Post Office of McLean and Qu'Appelle stations, and at this office.

Post office Inspector's office, Winnipeg, 11th of July, 1885.

W. W. McLEOD, P. O. Inspector.

## Public Notice!

All persons, including Lessees of grazing lands, are hereby required to take notice that the cutting of timber on the public lands without authority from the Minister of Interior, or the Local Crown Timber Agent of the Dominion Lands for the District, is forbidden by law; and all timber so cut without authority is liable to seizure and to be dealt with as the Minister of Interior may direct.

Each settler on a homestead quarter section not having timber on it, may on application to the Local Agent of Dominion Lands, purchase a wood lot not exceeding twenty acres in extent, at five dollars per acre.

Any person other than a homestead settler desiring permission to cut timber, must make application to the Minister of Interior, who will deal with such application according to law. Persons who have already cut timber without authority, must pay the dues thereon to the Crown Timber Agent at his office, on or before the 1st May 1885, otherwise the said timber will be cut under the provisions of the Dominion Lands Act.

(Signed) A. M. BURGEL, Deputy of the Minister of Interior.

## EXAMINATION 1885 Of Teachers.

The examination of candidates for non-professional First, Second, and Third-Class Teachers' Certificates, will be held at the following places:

WINNIPEG, PORTAGE LA PRAIRIE, BRANDON, BERTHE, MEXIMOSIA, NELSON, PILOT MOUNT, AND DELORAIN.

Commencing at each place on TUESDAY, JULY 21st 1885, at 9 o'clock a.m.

Candidates are required to notify the Superintendent before July 1st of their intention to present themselves for examination at the place at which they will attend; this notice must be accompanied by a certificate of moral character as required by law.

Further information may be obtained upon reference to the published regulations of the Protestant Section of the Board of Education.

J. B. SOMERSET, Superintendent of Education, Education Office, Winnipeg, June 6th, 1885.

a number of the largest grain dealers in the country, were distributed far and wide. Promises of from 10 to 15 cents per bushel more for No. 1 hard were freely made and published, and upon the strength of these statements farmers were induced to purchase at higher prices the pure seed. Everybody was to be made rich growing wheat; but when the harvest came it proved to be a harvest of disappointment. The parties who had signed the posters referred to waste the very first, to cry down the quality of the wheat, and even telegraph to the east the disastrous failure of the Manitoba wheat crop, hoping thereby to secure a monopoly of the grain trade of the country. This was giving us 15 cents per bushel extra with a vengeance surely. When the time wheat was first introduced into the country the millers were the first to cry it down, now there is nothing like it. They mind one of the Yankee's calf. He had

had to pull the ears nearly off the creature to get its head into the pail; and then he had to pull them off altogether to get its head out again. Each number of the Farmer grows more interesting, and as the fact that agricultural papers published east of the great lakes are almost useless here, becomes more generally known, your paper must shortly have an enormous circulation.

## YOUNG MEN—READ THIS.

The Voltaic Belt Co. of Marshall, Mich. offer to send their celebrated Voltaic Belt and other ELECTRIC APPLIANCES on trial for thirty days to any young or old afflicted with nervous debility, loss of vitality and manhood, and all kindred troubles. ## VITAL QUESTIONS.

CHAPTER I.  
Ask any or all of the most eminent physicians:  
"What the best and only remedy that can be relied on to cure all diseases of the kidneys and urinary organs, such as Bright's disease, diabetes, retention or inability to retain urine, and all the diseases or ailments peculiar to women?"—  
Ask the same physicians:  
"What is the most reliable and surest cure for all liver diseases or dyspepsia; constipation, indigestion, biliousness, malaria, fever, ague, &c., and they will tell you:  
"Mandrake or Dandelion!"  
Hence, when these remedies are combined with other equally valuable,  
And compounded into Hop Bitters, such a wonderful and mysterious curative power is developed, which is so varied in its operations that no disease or ailment can possibly exist or resist its power, and yet it is  
Harmless for the most frail woman, weakest invalid or smallest child to use.  
CHAPTER II.  
"Patients."  
"Ain't a dead or nearly dying?"  
For years, and given up by physicians of Bright's and other kidney diseases, liver complaints, severe coughs, catarrh consumption have been cured.  
Women gone nearly crazy!!!  
From agony of neuralgia, nervousness, wakefulness and other diseases peculiar to women.  
People drawn out of shape by exacerbating pains of rheumatism, inflammatory and chronic, or suffering from scrofula.  
Erysipelas.  
Salt rheum, blood poisoning, dyspepsia, indigestion and in fact almost all diseases fail.  
Nature is heir to  
Have been cured by Hop Bitters, proof of which can be found in every neighborhood in the known world.

Do not confuse without a bunch of hops on the white label. Shun all the vile, one stuff with "Hop" or "Hops" in their name.

## STANDARDISMS.

And now our Rapid City conferees has got deep into the "biggest ass" business again; some people like to wallow in it as native air. We are treated to such choice qualifying phrases as "colossal and wilful ignorance," "supreme cheek," &c., &c., almost persuading us the wisdom of creation is confined to the wise acre in the "city" that wants a railway. And all this choice literature is wasted because we have advocated the refusal of what the Dominion Government has at length seen fit to refuse—a land grant to the Northwest Central east of Rapid City. In its fury the local paper has lost sight of everything sensible, and limits itself to the belief there is no place in the country but Rapid City, and that the rest of the country has taken an oath to wipe "the only" natural site for pyramids out of existence. It also goes in for betting \$100, though from the recent clearing out of the place no one would believe there was that much money left in the "city," that it can produce not only the names of 111 farmers who have left the "six miles radius," but also a list of 70 more who are still resident. As eight sections would contain about the same area as a circle of twelve miles diameter, deducting school and bad lands, it would require an average of a settler on every half-section to locate the number of settlers the Standard quotes, which is a showing no part of the country can produce. If by farmers the Standard means men, women and children, and if the farmers of that neighborhood are blessed with as large sized families as country editors usually are, the Standard may be able to figure up the number he quotes, but not otherwise. We wish once and for all to assure our neighbor, neither the Mail, nor the Brandon people have the slightest ill will towards Rapid City, which the Standard says was a large place before Brandon was born; and if the Standard and the city of the "hub" only had the same feeling toward this place, both would have a different story to tell to-day.

All we desired was to prevent the construction of a line that was not required for provincial development, and that was designed to benefit a few speculators at the expense of this city. We objected also, as the Government has objected, to taking public lands for the construction of a line some 45 miles at no greater average distance than ten miles from two roads already aided by the public domain. The impropriety of this may never have once entered into the mind of our contemporary, but

the justice of the plea has at length prevailed, and the road has now either to start from Brandon or not start at all.

We are also accused of being "small souled" in not considering the requirements of the country west of Rapid City; but it was a large soul that directed the vaporings of the Standard up to the present, why did it not dwell upon that feature of the question, instead of the completion of the road east to Sydney, to the operation of which there is so much antagonism in every quarter.

What we always desired was the construction of a road from this place that would best serve the country westward between the C.P.R. and the Portage road, and if that touches Rapid City, well and good, but if it does not, it is the objection to Rapid City from location that is alone responsible for the misfortune.

Bob Watson, the hero of the age, "Manitoba's only representative" and "philosopher" Mills, are the genuine friends of this country after all. When the subject of rewarding the volunteers with scrip redeemable in land was up for consideration in the House the other day, Mills favored a cash payment, which would not add a single settler to Manitoba, and "oor ain Bob" suggested that those Northwest volunteers who were already homesteaders should be given their pre-emptions free, instead of the \$80 in scrip, to purchase 320 acres. This would be letting the Ontario volunteers off with \$80, while the residents would have a present debt of \$320 entirely wiped out,—a very nice discrimination to encourage settlement in this country, surely. Of course the amendment was out of order as Watson usually is from the fact he was out of order when he first aimed at politics, but that shows his stupidity none the less to proper advantage. Between Mills and Bob, they would soon strangle the country, if allowed their own way.

We believe our comments last week on Judge Walker's decision in re the Whitewater vs. C.P.R. assessment case were somewhat incorrect. In addition to deciding the C.P.R. were not liable to assessment, his honor ordered that the lands be struck off the non-resident list. This means, of course, they are in no way liable to taxation, and if it be the law, it places municipalities in a most undesirable position. It is a fact no matter what some lawyers may say to the contrary, that homesteaders cannot be forced to pay taxes until their patents issue, for until then the title is vested in the Crown, and Crown lands are exempt. If it is also a fact that this is the force of Judge Walker's decision, that C.P.R. lands are also exempt until the patents issue, and School Lands are known to be exempt, in the newer parts of the country there is but little else than personal property liable to taxation and responsible for the running expenses of the councils. The Local Government and blessed be their name for the favor, has saddled the country with an expensive Judicial system, with a never ending lot of municipalities that have their Reeves, Councilors, clerks and other officers as grass on the prairie; schools with scarcely a dollar of assistance from the Government, and for which blessed be the Government again for refusing to sell the School Lands in 1881, when requested to do so by the Federal Authorities, and when a good price could have been got for them, and for the maintenance of which there is but little liable save the chattels of the more enterprising settlers. It is true that many an honest settler on C.P.R. and Government lands will pay taxes when asked to do so, or in the fear they may be registered against his lands when he does get his patent. But in the face of the fact that so many more will stave off the tax collector, in the light of this information, until the time of receiving the patent

comes to hand, how this Government machinery is to be run in the interval, is a mystery for the future to solve. The injustice of the C.P.R.'s refusing to pay taxes on lands they have once sold, and for which they have received round payments, is apparent to all. It is also apparent this cannot be persevered in, if the Company wishes to retain the good wishes of the settlers to whose patronage they look for support, but this does not alter the anomalous look of the situation, when considered from a reflective stand point. It shows unmistakably the country was saddled with municipal Government many years before it was ready to support it, and that, even if it was prepared for municipal institutions, those we have are altogether too complicated and too expensive for the tender years of the country to support.

We much dislike personal references but there are times at which they cannot well be avoided, and especially where principle is involved. The other day a friend assured the Editor of this paper that the Hon. C. P. Brown asserts the reason the Mail is in opposition to the Local Government is because he refused purchase some property its editor owns in Portage la Prairie. To make the matter short, we say the story is an unqualified falsehood, and we challenge Mr. Brown to publish evidence, if he has it, to prove the contrary. The fact of the matter is the Editor of this paper became an opponent of the Government, as soon as he commenced to learn its policy and long before he held any property to dispose of in that town. The old file of the Portage Tribune edited by him will prove the truth of this. While Mr. Brown has his hand in, however, he might mention the reason why he endeavored to bribe the editor some two years since into a support of the moribund Administration, by assuring him "the Government would make it worth his while if he would." He might also mention the circumstances surrounding the visit of the late Mr. Sutherland, to Mr. Cliffe's bedroom in the Brunswick hotel, Winnipeg, on a certain occasion repeating the same offer of "worth his while," if the support could only be secured. When he has done with this, he might with advantage explain why it came that himself and others advanced money to a third party to purchase from Mr. Rowe a mortgage against the MAIL office, to force the paper into the support of the Government, we take it, when coercion and knavery of other designs could not succeed. Whether the money for the purpose came out of the Government treasury or not, we cannot say, and we do not insinuate; but it would be no worse for Mr. Brown to use public money for that purpose, than it was for Mr. Norquay to take it to pay his own obligations to coal companies. There is one thing we may assure Mr. Brown of and it is this: If that Government wants to secure the support of the Mail, or any other paper in the country directed by honorable motives, it must make a complete change of the personnel of its incumbents. A body of men banded together as a first object to plunder the treasury for personal ends, can never hope to secure the favor of any honest man much less an honest Conservative paper.

Speaking of Mr. Norquay's new organ, at Winnipeg, the Manitoban, the Toronto News, a thorough Conservative paper says: "The managing editor is a Grit, but the paper will remain Tory as long as John Norquay does, and Norquay will remain Tory as long as the Tories retain power at Ottawa. After that he will discard them and make a new deal. John has a holy horror of being on the weaker side." Outside as well as home Conservatives are forming a proper estimate of the depth of Mr. Norquay's political convictions. It is a most humiliating spectacle when the Government of a

country cannot get a home newspaper to support them, except the papers they own themselves, and this is the boat the Government of Manitoba is sailing in.

In reply to Mr. Blake in the House the other night, Sir John Macdonald pointed out that in the days of the Mackenzie regime, the half-breeds of the Northwest were sending in their petitions for redress, and the Winnipeg Free Press and the Portage Liberal say, that Sir John "accidentally" omitted to mention that the Grit Government was defeated before they had time to consider the grievances complained of. Why do not these prints admit also that the country would never have heard there were complaints made in those days but for the fact that Sir John pointed it out. All along the policy of the Grit prints was to insinuate no mention was ever made of hardships until the Tories came into office, and the public would never have heard anything to the contrary but for the diligence of Sir John Macdonald and his friends. Now, however, that is admitted grievances were complained of under Grit rule it establishes one of two things neither of which casts any credit on the Grit party—it proves either the half breeds up there complain without cause—that they are chronic grumblers—or that even the Grit policy was unsuited to the wants of the country. If the former, it only exposes the hypocrisy of the Grits of to-day in making much ado about nothing, as it shows their inconsistency in denouncing the present government for creating a policy that gives offence, when the circumstances prove they did the very same thing themselves. If the present Government's policy gives rise to grounds for just complaints, we would like to know wherein its authors are more responsible than are the authors of the policy that created the complaints in the days of Grit rule? But a further consideration of the question must show the Grits to a disadvantage. The Free Press says want of surveys is one of the grounds of complaint, while its friends in five years made but 1,700,000 of them against the 25,000,000 made in seven years by the Tories of to-day. If then surveys were to have relieved the wants of the settlers, the Grits hastened very slowly to give that relief. But there is another fact in connection with this matter, our readers must not lose sight of. In the days of Grit rule one hundred per cent of the settlers around Prince Albert were longtime residents while to-day three-fourths of the people there, seventy-five per cent, of the complainants are men, who received free properties in Manitoba years ago, who sold them, and are now asking for a second supply of Government favors. Will the Grit prints referred to kindly bear this in mind?

The Portage Grit print in speaking of our strictures on the popularity of the Local Government says: "The Brandon Mail than which there is not a more rabid, unreasoning Conservative newspaper in the wide Dominion says," &c., &c. The fact that the Mail refuses to support an incubus that is at the same time said to be Conservative, is pretty good evidence the Mail is not "unreasoning," whatever else it may be.

The Montreal Herald, owned by the Hon. Peter Mitchell, credits the Hon. Mr. Hamilton with using the annexed language at a meeting of the Montreal Board of Trade, at which the provisions of the Manitoba Exemption Act were discussed: "Mr. Hamilton, Mayor of Winnipeg, and a lawyer, who was present, said that an effort would be made to get the Dominion Government to disallow the bill. He thought, under any circumstances, it was ultra vires and would be rejected by the courts as unconstitutional, at least as to the retroactive provision."

Think of this, ye gods and fishes, Mr. Hamilton frames a Bill in the Local Government, and agrees with

his colleagues to force it upon the country as the law of the land, and then declares an effort will be made to get the Dominion Government to disallow it, because it is "ultra vires," and unconstitutional. Think of an Attorney General forcing the passage of an Act that he knew to be unconstitutional, and certain to be "rejected by the courts." Manitoba has a sorry lot for a Government.

The Free Press says the MAIL is a very "smart paper," and asserts that an extract we credited to the London Times was taken from the Manitoban. The Manitoban may have contained the item, but if so, it took it from the London paper; that publication first gave it utterance. The Free Press is also a "smart paper," and it would be still smarter if it would only relieve the minds of many of its friends on one particular point—if it would only tell the public how it comes that Mr. Luxton has such a hatred for the Norquay Government that he endorsed notes to destroy a paper in opposition to that Government, and to establish one in its support—to assist the perpetuation of an Administration. The Free Press is trying to prove to be a millstone on the neck of the progress of the country.

## BAPTIST CONVENTION.

The following resolution was unanimously carried by a standing vote:

Moved by H. S. Wesbrook, and seconded by Rev. A. A. Cameron, that the resolution of the Baptist Churches of Manitoba and the Northwest Territories in convention assembled deeply deplores the disunion which have overtaken our country during the past few months, and regret exceedingly that a small section of our people should have allowed themselves to be misled as to take up arms against the constituted authorities of our fair Dominion.

We sympathize most sincerely with the wounded and regret exceedingly the loss of so many valuable lives.

To the relatives and friends of those brave men who sacrificed their lives in defending our country we extend our deepest sympathy, and trust that the God of all grace may comfort them, as none other can.

We feel proud of those of our Canadian Volunteers who so promptly and cheerfully responded to the call of duty.

Especially do we feel pleased with the action of the gallant "90th," as well as the other contingents of Manitoba and the Northwest, and we rejoice that success has attended their efforts and that victory is perched on the banners of our Canadian heroes.

We are truly thankful to the great and all-wise Ruler of the Universe that so many have been spared to return safely to their homes, and that peace and prosperity have again been restored to our country.

On motion of Rev. A. A. Cameron, seconded by Rev. J. H. Doolittle, it was resolved that the Carman Church be received into fellowship with the Convention. Rev. Mr. Cameron was then appointed to welcome Rev. Mr. Mellick, representative of Carman, and with a few appropriate words extended to him the right hand of fellowship.

The following report of the executive board for the year ending 30th of June, was adopted on motion of Rev. Mr. Mellick, seconded by Mr. Chapin:—

The following is a brief summary of what has been accomplished during the past year:—

Emerson—Rev. J. H. Doolittle was ordained as pastor June 14th, 1885. Party sustained by the Manitoba committee of the Baptist Union.

Carman—This field was occupied by Mr. Mellick about the 1st of June last. Party sustained by the Alexander Street Church, Toronto.

Moosomin—Occupied by Rev. J. E. Myles about middle of June. Assisted by Union committee.

Strathclair and Oakburn—Mr. J. E. Davis is laboring on these fields during the summer vacation.

Brandon—Church building completed, and call given to Rev. J. H. Best, which was accepted. \$600 granted by Union Committee towards building fund, on condition that the church is self sustaining in future.

At the solicitation of your Board, pastor Cameron, of the Winnipeg Church, visited Manitoban a short time ago. He found there seven families. A meeting was held, and a committee appointed to canvass the neighborhood to ascertain if it was possible to establish a cause there. The result is that they offer to call a pastor and raise \$200 on the field on condition that they can get a grant of \$400 from Union Committee.

Your Board, through Brother J. F. Eschman, one of their number, has been in communication with the brethren in the States with the hope of securing a German Missionary for this Province. While this has not been accomplished yet, we are pleased to state that Rev. Mr. Peter, of Minneapolis, has consented to visit Winnipeg occasionally, (where there are a considerable number of Germans), also calling on the Mennonites on his way, your Board consenting to bear one half his travelling expenses. Mr. Peter has already paid two visits to our country, and on both occasions has held large and interesting meetings.

On the recommendation of your Board, the Manitoba committee of the Baptist Union of Canada appointed Rev. Jesse Gibson, of Portage la Prairie, to collect funds in Eastern Canada for to carry on missionary labors in Manitoba and the Northwest. Brother Gibson visited the east during the months of December and January last, and

*Atkinson & Nation,*

Corner Rosser Av. and 6th Street, Brandon.

performed his task faithfully, and with the most satisfactory results, as his report will show.

One of the most important duties that was laid upon your Board during the past year was that of carrying on negotiations, through our corresponding secretary, with the various organizations in the East, with the object of forming a union of Baptists throughout the Dominion for denominational work, having charge of missionary efforts throughout the Dominion. We are happy to state that the result of these negotiations has been most successful, and that the basis of union will be before you at this convention for your approval.

While your Board has been glad to receive all aid available from student missionaries during the summer months, yet we are more than ever impressed with the importance of exerting our energies, as far as possible, in locating permanent pastors, beginning at those points which give the brightest indications of becoming self-supporting.

The Board would call the attention of the Convention to the following extract from a letter received from the secretary of the Manitoba committee of the Baptist Union, expressing the views of that committee.

We judge that the only practical manner of carrying on that work (referring to missionary efforts in Manitoba and the Northwest Territories) lies in the appointment of a missionary superintendent, whose business it shall be, subject to a Board, to have entire direction of the work, we do not see that the business can be successfully gone about in any other way.

The experience of the past year has convinced your board of the wisdom of this opinion. We have found it extremely difficult to make recommendations on account of the lack of definite information, and have been compelled, in the absence of such an officer, to send Pastor Cameron, of the Winnipeg Church, to visit several districts in Southern Manitoba, while pastor Gibson, of Portage la Prairie, has done similar duty towards the west. We trust that the convention will consider this matter.

Your board would ask the Convention to consider if the time has not come when we are called upon to make some effort towards establishing a cause amongst the Mennonites. These people, on account of their habits of industry and sobriety, are destined to hold an important position in the future of this country, and if we can make an early and successful movement in the direction indicated, we believe much will be done towards establishing New Tes.

tament principles in our land.

Although our attention has been so much taken up by the pressing demands of our home work, yet we are pleased to note that something has been contributed by our province towards foreign missions. This is a work that calls for our prayers and financial support, and we think that an opportunity should be given in our churches at least once a year to contribute towards this cause.

Your board feel that they cannot close this report without expressing their confidence in the future prosperity of this country in a national as well as a spiritual sense. While we deplore, in common with all good citizens, the rebellion that has lately taken place in the Northwest Territories, and earnestly pray that the cause of war may never again visit our Dominion, yet we are confident that our God, who is rich in mercy, will bring out of it a blessing to our land. We have also good reason to be thankful for the promise of an abundant harvest, and are cheered by the hope that the cloud of depression that has overshadowed us for some time is about to pass away.

In conclusion our prayer is that the blessing of God may richly attend you in all your deliberations, and that each of you may be moved by that spirit of unity which is sure to bring success.

On behalf of the Executive Board  
J. F. McINTYRE,  
Rec-Secretary,  
J. B. McARTHUR,  
President.

Rev. J. Gibson, Statistical Secretary, presented a partial report compiled from the reports and letters of the churches, showing that there had been received as members during the year, by baptisms, 39 ; by experience, 5 ; by letter, 15 ; total, 59 ; total increase, 97 ; total membership, 626 ; average attendance at services 1,205.—The report was adopted.

On motion of Messrs. Westbrook and Chapin it was resolved that the Convention grant \$100 towards the object, and Messrs. Westbrook and McArthur undertook to raise the balance of \$40, making a total of \$400, which it was agreed should be paid on Rev. Mr. Mellick's securing subscriptions to an equal amount. It was agreed that the subscribers in the Convention should send their subscriptions to Mr. J. F. McIntyre, recording secretary, on or before the 15th of August.

On motion of Rev Mr Moyle it was agreed that all matters of detail relating to the payment of the money and the erection of the church should be left to the Dufferin Church and the Executive Board of the Convention.

HARTNEY P. O.

Crops are looking very well in this district and there has been a large crop sown, although prices have been low and farmers a long distance off, farmers still hope to get better prices and nearer markets before long, and this year many have shown large crops with the expectation of having either the Southwestern or the Brandon & Soeris R.R. to take away this year's crop, and whether they will be disappointed or not time will tell, but we still hope. These farmers have who having bought land from the C.P.R. four years ago, believing that then would have a railroad to ship their grain by before this contract with the C.P.R. would expire, and, being led to believe that the road from Brandon would be built, they bought lands along the projected road, thinking that before they would be compelled to break and crop one half of their lands the road would be here to take away their grain, and this being the last year it accounts for some large crops. The question is often asked will we still have to go to Brandon or Graveland with our grain? Some say the Southwestern will be built to Whitewater Lake, and if it runs south of the lake this fine district will be no slacker of. We want the road from Brandon to the coal fields, the road we bargained for when we bought our lands, and we hope to get it before long, we have not lost all faith in the C.P.R. yet. We think if some of the officials would take a drive over this section of country and visit some of the farmers that have stuck to their terms, and tried to hold their contract with the C.P.R. they would be inclined to push the road at once. When we say some of the farmers, we mean that all that bought lands under their old contract did not carry out that contract, seeing that without the road it would not pay, as they allowed the lands to go back into the hands of the C.P.R. and have their payments already made. Mr. Hartney has 500 acres of grain, Mr. Beckett has 150 acres, Mr. Young 120, Mr. Munro and G.A. Crosswhite, we might also mention many more that have from two to five hundred acres of crop on the C.P.R. A visit from any person would convince them that we have a good right to a road. July 1st being Dominion day a very pleasant day was spent by the people of this vicinity in Mr. Hartney's grove, a grand picnic was the order of the day. About 500 people assembled with lawns well filled with the best of the picnic food, and we think that if some of the city people want the picnic can turn out in the way of cattle they would like to spend one day at least with us. The programme for the day consisted of swinging, running, jumping and games too numerous to mention. Space will not permit us to give the names of winners, but a very enjoyable time was spent. The most notable event of the day was a base ball match between the Clippers of Whitewater and the Soeris Rangers. The game was first contested, the first three innings no runs being made on either side, but during the fourth the Clippers got their work in and made eight runs, this gave them the lead which they kept until the close of the game, when the score stood 10 to 10 in favor of the Clippers. The game was a friendly one and was carried out in that spirit all through. After the days sports on the prairie were over, the young people retired to the house of Mr. Woods where they spent a very pleasant night in dancing.

ONE OF THE DAYS.

A clause in the new laws enacted by the Manitoba Legislature in 1893 prohibited the exposure of poisoned bait or other poisonous substance in any place or locality whatever. By a strict interpretation of this provision it would probably have been illegal to use Paris green for the prevention of potato bugs should this pest make its appearance. The law has therefore been amended that it shall not prohibit the use of any solution or infusion or any material or ingredient for dressing, protecting or preparing any grain or seed for bona fide use in agriculture only, or for dressing or protecting any plant or tree which may be situated within any enclosed grounds or lands.

Challenging Opinions.—W. A. Doyle, of Bonhill, Man., writes: "I read you the following notes in response to your general invitation in your May issue, in reference of opinions &c. Firstly, I notice that on page 75 of that issue you advise the sowing of Weatherfield or Yellow Danvers onion seed. In view of the almost total failure of the onion crop last season with its consequent heavy advance in the price of that valued bulb, I may be allowed to suggest the early red variety as the best suited to our soil. Being especially interested in this matter, I have just made a finding that these sowing early reds met with much better success than sowers of Weatherfield and Danvers. In 1881 I had my best crop, many of the bulbs weighing one and a quarter lbs., and I sold the entire yield for \$3 per bushel. Previously I had sown Weatherfield and Yellow Danvers with but indifferent success, having a large proportion of scallions and less uniformity in size. The reds are also much better keepers."

Those of us growing wheat for sale to the elevator people are practically forced to grow red fife, by the discriminating tariff of prices. Others, however who can manage to feed livestock and to flour their crop, find white Russian the best, for the reason that we can almost invariably count on a yield of ten bushels per acre in favor of the Russian, while we fail to detect the slightest difference in the bread made from the flour of the two kinds, and also for the reason that we find a difference of at least ten days in favor of the Russian, in ripening. This latter is, we admit, a most important matter in the face of the experience of the past two seasons. I have realized, by selling the flour, and feeding the bran and shorts, at least one dollar per bushel, for my wheat besides having saved five times and expenses of raising 25 to 30 miles to Elkhorst or Virdon. I have ever found my best market in my tyres and puggies, for all other grains, but how long this may continue is a question, if the Manitoba farmer is to be deprived of an opportunity of supplying even the most required for the Northwest and far. We understand that the quarantine regulations have been suspended by the Dominion Minister of Agriculture in order to allow the Winnipeg contractors to import from

the United States the cattle required for the forces. The farmers of Manitoba will be allowed to contribute to the cost of the rebellion—which is quite proper—but by this unique application of the National Policy we are to be entirely debarrd from a participation in the supplying of the food and our stock exposed to the danger of infection from imported cattle. I am aware that there is an abundance of excellent beef cattle in this Province and also a large quantity of home cured bacon in the hands of our farmers, awaiting a market, and it is very hard for us to see the entire supply of both these meats imported, and the money paid therefor passing into the pockets of Americans. Our attachment to our National Policy has received a rude shock. Let us hope that our Department of Agriculture may be enabled to have this market opened to us upon again presenting the matter in a strong light to the Dominion Minister."

A GOOD FILTER.

Pure water is indispensable to health, the least impurity should be removed by a good filter. Pure Blood is also indispensable; there can be no perfect health without it. The liver filters the Blood. Regulate the liver with Burdock Blood Bitters and make pure Blood.

FAITH-HEALING A FACT.

There can be no question that faith-healing is a fact. The brain is not simply the organ of the mind, it is also the chief centre, or seat, of centres, of the nervous system by which the whole body is energized, and its component parts with their various functions are governed and regulated. There is no miracle in healing by faith, whereas it would be a miracle if the organs of the body were as it is, and the laws of nature such as they are, faith-healing would not be a favorable condition. The fallacy of those who proclaim faith-healing as a religious function lies in the fact that they misunderstand and misrepresent their own formula. Faith is not a faith that heals, not the hypothesis of a soul, or object of faith, outside the subject of faith. The whole process is misnamed. Nothing is done for the believer; his act of believing is the mere condition of his cure. We all remember the old trick of making a man ill by persistently telling him he is ill until he believes it. The contrary of this is making a man well by inducing him to believe himself to be so. The number of true "miracles," if properly will be the precise number of persons who are capable of being thrown into a state of mind, and body in which "faith" dominates the organic state. Paranoiacs will claim the area of this process to be a power of mind and disease; but as a matter of fact they are justified by the facts in making this statement. It is not forgotten that function goes before form, as in development, and that there are large class of cases in which the disabilities of a diseased organ for a fair performance of its functions are in daily need of want of power or irregularity in action. And it is a fact in pathology, that if the function of an organ be maintained or restored much of the destructive metamorphosis due to proliferation of connective tissue, fatty deposit, or even certain forms of atrophic change in which the nuclei of cell-life are rather denuded than destroyed, may be arrested and to some extent repaired. The vis medicatrix nature is a very potent factor in the amelioration of disease, if only it be allowed fair play. An exercise of "faith" as a rule suggests the operation of adverse influences, and appeals strongly through the consciousness to the inner and unceasing faculty of vital force. There are many intractable cases in every practice which might be "cured by faith." It is well that these poor persons should be benefitted by some means, it matters little what; and if they can be "healed by faith" we ought to be very glad, and thankful too, for the mistaken zeal of those who, being weak minded themselves, make dupes of other weak minded folk to their advantage. This is a blind leading of the blind in which they do not fall into the ditch, but, by a happy combination of circumstances, actually escape danger and gain something to boot—L. M. G. M. C.

THE BEST YET.

There is no preparation before the people to-day that commands their confidence more, or meets with a better sale than does Dr. Fowler's Extract of Wild Strawberry the infallible remedy for all forms of Summer Complaints.

CANADIAN.

Archbishop Tache is at Ottawa. Gooderham & Worts, Toronto, tendered \$38,000 to the Revenue Department yesterday in payment of duty on spirits in hand, but the inspector declined to accept it, acting under instructions from the Government. The dealers say that liquor will rise in price, the Government meditating an increase of duty on them as well as tobacco.

Viscount d'Honninville, of Paris has just returned from Ottawa, where he has been negotiating with the Government with regard to an annual subsidy for the proposed line in Nova Scotia, between Oxford and Louisburg, C.B. known as the Montreal and European Short Line. The road is intended to develop the coal traffic of this part of Nova Scotia. This line has no connection with the Canadian Pacific and it is expected as soon as it is completed to Montreal, that a large portion of the traffic between Europe and America will go this route. Louisburg harbor long many miles nearer Liverpool than any American port.

Sanford Robinson and A. Kalsbe were drowned in the Grand River at Dunville on Tuesday last week.

**Scientific American.**

ESTABLISHED 1845.  
The most popular WEEKLY newspaper devoted to science, mechanics, engineering, discovery, invention and patents ever published. Every number illustrated with splendid engravings. This publication furnishes a most valuable encyclopedia of information with regard to the progress of the world. The scientific and mechanical world should have a copy of this paper at all times. It is published weekly, except on Sundays and public holidays. Price, 10 cents a copy. Sent by mail for one year, \$10.00 in advance. Address: MUNN & CO., 375 Broadway, New York.

**PATENTS.** Munn & Co. have established offices in London and Paris, and have prepared more than 10,000 patents and applications for patents in Great Britain, France, Germany, Austria, Prussia, Russia, Italy, Spain, Portugal, Belgium, Holland, Sweden, Norway, Denmark, Greece, Turkey, Egypt, India, China, Japan, and all other countries. They also have a large number of agents in all the principal cities of the world. They will also prepare and prosecute all cases of infringement of patents. Address: MUNN & CO., 375 Broadway, New York.

**NO SURPRISE!**  
THE GOVERNMENT AND THE AMERICAN AGRICULTURIST.

The American Agriculturist is a weekly paper published by the Government. It contains a full and complete description of all the latest and most improved agricultural implements, machinery, and tools. It also contains a full and complete description of all the latest and most improved agricultural methods and processes. It is published weekly, except on Sundays and public holidays. Price, 10 cents a copy. Sent by mail for one year, \$10.00 in advance. Address: MUNN & CO., 375 Broadway, New York.

**HALF A CENTURY.**

What it is To-Day.

Six months ago the American Agriculturist was a small paper, published by a private individual. It was then a mere curiosity, a novelty, a thing of no account. But now it is a paper of great importance, a paper that is read by all the farmers and agriculturists of the United States. It is a paper that is full of interesting and valuable information, a paper that is full of the latest and most improved agricultural methods and processes. It is a paper that is full of the latest and most improved agricultural implements, machinery, and tools. It is a paper that is full of the latest and most improved agricultural news and events. It is a paper that is full of the latest and most improved agricultural statistics and facts. It is a paper that is full of the latest and most improved agricultural opinions and views. It is a paper that is full of the latest and most improved agricultural information and knowledge. It is a paper that is full of the latest and most improved agricultural progress and achievement. It is a paper that is full of the latest and most improved agricultural hope and confidence. It is a paper that is full of the latest and most improved agricultural faith and belief. It is a paper that is full of the latest and most improved agricultural love and devotion. It is a paper that is full of the latest and most improved agricultural courage and bravery. It is a paper that is full of the latest and most improved agricultural strength and power. It is a paper that is full of the latest and most improved agricultural wisdom and knowledge. It is a paper that is full of the latest and most improved agricultural truth and reality. It is a paper that is full of the latest and most improved agricultural justice and equity. It is a paper that is full of the latest and most improved agricultural peace and harmony. It is a paper that is full of the latest and most improved agricultural unity and concord. It is a paper that is full of the latest and most improved agricultural love and devotion. It is a paper that is full of the latest and most improved agricultural courage and bravery. It is a paper that is full of the latest and most improved agricultural strength and power. It is a paper that is full of the latest and most improved agricultural wisdom and knowledge. It is a paper that is full of the latest and most improved agricultural truth and reality. It is a paper that is full of the latest and most improved agricultural justice and equity. It is a paper that is full of the latest and most improved agricultural peace and harmony. It is a paper that is full of the latest and most improved agricultural unity and concord. It is a paper that is full of the latest and most improved agricultural love and devotion. It is a paper that is full of the latest and most improved agricultural courage and bravery.
